SUMMARY

Over 20 years of experience in website, app, and intranet development—from concept to completion, building everything from the homepage to site layout and functionality. Experienced in working at marketing and design studios, providing web consulting services, and developing websites, intranets, and web applications for large and mid-sized companies.

Proficient in Shopify Plus, WordPress, XML, CSS3, JavaScript, ReactJS, jQuery, Liquid, PHP, Ajax, and more. I deliver high-quality work on time and excel both independently and in team settings.

Bonuses: 8 years building ecommerce websites for the big international compaties; 6 years in marketing agencies, creating websites and digital reports. Strong visual design skills for digital and print using Adobe and Figma. Project management and QA experience ensure high-quality results. A mathematical mindset helps me to structure and optimize tasks efficiently.

Open for remote, hybrid or on-site position.
